Reopened this task on 1st Jan 2024  
Again prepared data for the BMS Templates by satisfying requirements or specifications  
--> Take same bridgecodes for all tables templates  
--> Include all spans for those bridgecodes  
--> Take the data from 2019 and from 2020(after september)

Work completed on 1st Jan 2024 itself, points that I have noted are

- The data belongs to 2020 is only there in BridgeDetails and LocationDetails
- Mostly all tables have 2019 year data, only few have other years data also..
