Description Hi Bhanu Sir, For the Balaji Device and the Generic Pigmy File Device (Previous Name Koppal Device) Merge File Functionality Could you please check the following The changes are related to the ERP Input File for both Devices. In the Balaji Device ERP input file, if the ERP Society Account No. Field is displayed with out the Prefix "0" and with Space characters at the end("example":231-----), we need to add the prefix '0' to make it 15 digits (Expected value after making it 15 digits:000000000000231). The Same above condition applies for the Field ERP Society Deposit No. in the file Generic Pigmy file			

History
