Description			
Some chainages are not updated/missing. Total MDR and SH roads are 18278, but chainage updated only for 18230 records. On 22-05-25,I have verified the data for why those are not updated. And tried to execute the chainageupdate sp to update chainage but, chainages are not updated need to check sp and update the remaining chainages.

On 02Jun2025, I have verified data and SP
some chainages were not updated in the AccidentDetails table,
Due to distance of Gps latLongs & Accident LatLongs (dbo.CalculateDistance(@Lat, @Long, g.Latitude, g.Longitude) AS Distance) exceeds 50m(Radius).So that's why for 48 records Chainages are not updated. Those are includes in MDR098,MDR100,SH006A,SH008,SH019,SH020,SH020B,SH036,SH087,SH114,SH117,SH123 Roads.
