<b>Description</b>			
-Province, district, roads, stations dropdowns to be dependent in the same order sub-filters dropdown values not getting cleared based on the selection of parent filter dropdown			

History

#1 - 02/04/2024 02:55 AM - Kalyan Battula

Province, district, roads, stations dropdowns to be dependent in the same order.  
sub-filters dropdown values not getting cleared based on the selection of parent filter dropdown

generate report based on the filter selected  
"1. change the report headers - Class-1 as Motor Cycle ; class-2 as Light Vehicles ; class-3 as Heavy Vehicles  
2. ideally, 5 days it is 12 hrs, and 2 days it is 24 hrs, so night rows should be 2 instead of 4 (I have made these changes in SP)"

we need a dropdown for report type - Road wise or District-wise.  
"based on the selection the report format will change as below  
if District-wise then report will be as existing and if road-wise then show in one single page order by total ADT and direction in descending order.  
2. by default road-wise report type to be shown"
